### **The River**

The amazing city of Camelot has one main river which leads to a small island called Shallot. Shallot is an amazing, calm place and if you want to visit Shallot you just travel down the river. The large river leading from Camelot has a great supply of trout – a fish which the locals use a lot. So if you love fish then you will love the river. Warning, don't drink straight from the river even though it is low risk for you to get a disease you still can, as people empty their waste products into it. The river is an important part of Camelot as it travels to any lace near which means it is like a road out of Camelot. The citizens of Camelot love the river and I'm sure you would too if you moved to Camelot.

### **Inside the city walls**

I can tell you that the city of Camelot is an amazing place and is sure to have everything you've ever wanted. You will be astounded by some of the foods you will find. Burghers are a big part of Camelot as many of the Burghers and Black-smiths are owned by Burghers who start their own business to get enough money.

You will also find floral gardens, cobbled streets, amazing views and there will always be something to do around the city of Camelot. Like going for lunch at a burgher's restaurant or going for a walk. You can even go to Shallot and listen to a calming voice which is said to be a fairy's voice, people believe this as no one has ever seen her face.

The hygiene and sewage system is great so you never have to worry about getting an illness unless you drink out of the river.

### **Law and order**

The city of Camelot is home to a righteous ruler, King Arthur, who is loved by all the land. There are many rules in Camelot and if you obey them then you won't get hurt.

Some of the rules are things like: do not steal; do not hurt or kill; do not mess with the sewerage system. And some of the punishments are, you might get your hand chopped off or drowned, but you don't have to worry if you don't break the rules, you won't get hurt; they are to more to keep people like you safe.

I must admit the king has some horrible ways of punishing people but it is very rare that he does as Knights roam around the city all the time making sure everybody obeys the rules when they come of the cobbled roads of Camelot.

### **The Isle of Shallot**

Up the river from Camelot is a peaceful island called Shallot which is calm and heart-warming. You will be amazed by how many great things there are to see down at Shallot. But the best thing is said to be the fairy's singing which you can hear everywhere in Shallot. Shallot has a small population but it still a great place. A lot of the island is rye and barley but there is a tower with four grey walls and four grey towers where there is said to be a fairy embowered.

### **The Fairy**

No one has ever seen the Lady of Shallot so she is thought to be a fairy, her heart-warming song fills the villagers' hearts with joy. Take my word for it, go and try to see her yourself and maybe you'll be the first.

### **Conclusion**

In conclusion, Camelot has everything. In our opinion it is the best place on Earth but don't take our word for it, come have a look for yourself.
